Public Notice

Dear Camden-Wyoming Sewer & Water Authority Customer,

TESTING WATER MAIN VALVES: TUESDAY, JUNE 18, 2013

Beginning at 8:00AM through 1:00PM you may experience temporary loss of water service for a short period of time for we will be testing shut off valves for a future fire hydrant replacement that will be taking place in front of 26 Old North Road. During the time that the water valves are being tested you may experience temporary and harmless discoloration of the water and/or fluctuations in water pressure.

To avoid possible discoloration of light-colored clothing, residents may wish to not launder clothing during the times listed above and a period of at least 24 hours after.

We apologize for any inconvenience this may cause. Please contact our office at 302/697-6372 if you should have any questions.

Respectfully,

Camden-Wyoming Sewer & Water Authority
