**WATER TOWER MAINTENANCE
WATER CONSERVATION NOTICE**

Attention Camden-Wyoming Sewer and Water Authority Customers,

The Camden Wyoming Sewer and Water Authority is asking all water customers to reduce water consumption during the time period:

July 9th until July 24

This notice serves to inform you of ongoing maintenance work which was scheduled for the water tower located at 16 S West Street, commencing this week and expected to conclude in approximately two weeks, weather permitting. This essential project entails thorough cleaning and repainting of the water tower's exterior, as well as comprehensive cleaning of its interior.

During the maintenance period, we request our customers to conserve water usage whenever possible. You may experience periods of lower water pressure. Thus, we kindly ask all residences to be mindful of their water consumption during this time. With good customer cooperation there should be ample water supply during this period and should not be an interruption of service.

If you have any queries or concerns regarding this project, please do not hesitate to contact our office at 302-697-6372 or send your inquiries via email to info@cswa.com. Your cooperation and understanding are greatly appreciated as we strive to maintain the integrity and reliability of our water distribution system.
